

We at DR. OESTREICH + PARTNER GMBH are very pleased to share some good news with you:

**As of June 10th 2016 DR. OESTREICH + PARTNER GMBH has joined the ERGOMED group!**

ERGOMED PLC is a UK-based, actively growing company providing Clinical Research Services and Pharmaceutical / Biotech Co-Development in 54 countries.

By teaming up forces with the ERGOMED group, DR. OESTREICH + PARTNER GMBH with its more than 25 years of experience in Clinical Operations and 20 years in EDC application development (OPVERDI) will enlarge its outreach and capabilities to provide you with strengthened and enhanced services.

**How does this affect you?      If you prefer - not at all.**

DR. OESTREICH + PARTNER GMBH will remain as a company and continue to provide you with diligent work in the areas of Clinical Research Services. The entire team will continue to support you in all present and future projects with the same dedication, expertise and responsiveness that you have experienced in the past. All contact persons you had in the past will continue to be responsible for your projects in the future. All administrative structures and current SOPs will remain in effect.

**What are your benefits?      If you like – quite a few.**

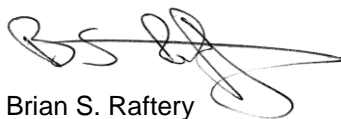

As a member of the ERGOMED group we can now provide you with a much broader scope of integrated services and support at a high quality level. This encompasses enhanced capabilities for large studies, providing a seamless EDC solution, added medical expertise in additional therapeutic areas (e. g. orphan drugs), world-wide coverage for clinical trials, pharmacovigilance and Medical Information including platform for drug safety reporting in more than 100 countries and reliance on group-wide standards of quality.

DR. OESTREICH + PARTNER GMBH will maintain its responsiveness and commitment to all present and future clients as a member of the ERGOMED group.

With best regards

Dr. Wolfgang Oestreich  
Managing Director

Brian S. Raftery  
Managing Director
